MANUFACTURING SYSTEMS AUTOMATION TECHNOLOGY

DOWNLOAD

To read **manufacturing systems automation technology** eBook, remember to refer to the web link listed below and save the ebook or have accessibility to other information which might be relevant to MANUFACTURING SYSTEMS AUTOMATION TECHNOLOGY ebook.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: Harbin Institute of Technology Press Pub. Date :2010-05-01. This book is the Eleventh Five-Year national defense features program materials. This book is divided into seven chapters. the content focuses on the development of automated machinery systems and status and trends. the establishment of machinery automation systems. manufacturing process automation control systems. material transport automation. automated testing and monitoring systems and assembly automation. and finally to Automotive transmission case. for example about the overall design of manufacturing automation system. This book can be used as Mechanical Engineering and Automation of undergraduate teaching. but also as related professional reference book. Contents: Chapter 1 Introduction 1.1 Definition and concept of automated manufacturing systems 1.1.1 Manufacturing 1.1.2 System 1.1.3 System 1.1.4 automation and machinery manufacturing automation systems and automated machinery 1.2 Machinery manufacturing system development process and system automation status and trends 1.2.1 Automated Manufacturing Systems Manufacturing Systems 1.2.2 development process involved in the field of automation technology and the factors affecting the development of automated manufacturing systems 1.2.3 Mechanical trends 1.3 Classification of mechanical manufacturing automation systems and automated manufacturing systems to form the first 2 machinery manufacturing automation systems to establish machinery automation system 2.1 build 2.2 steps to establish machinery automation systems systems analysis systems analysis 2.2.1 2.2.2 basic principles of systems analysis and content of the steps 2.3 to establish machinery automation systems 2.3.1 Design the basic principles of system design system design steps 2.3.2 and content 2.4 Machinery automation system design and simulation model of automated system model 2.4.1 2.4.2 2.5 automation system computer simulation automation system reliability 2.5.1 Reliability analysis of the significance of the reliability of the basic concepts 2.5.3 2.5.2 Reliability allocation should...
